Camp #	First Date ¹	Last Date	Length of Operation	Foreman	Comments
1	11/2/1906	*	?	11/2/1906 - Tony Klister	Note: Camp 1 was among the first four camps begun in 1906 when the RLLC was purchased by the U.S. Leather Company. It is an unusual camp because it was located far from the Rib Lake mill and not connected to the Rib Lake mill by steam hauler or the RLLC railroad line. Rather, its logs were transported by rail from the camp near Goodrich through Athens, Abbotsford, Medford, and Chelsea to the Rib Lake mill. A Soo Line valuation report, Doc. #12401, reported that by 1915 the railroad tracks serving Camp 1 were in disuse, grown over by grass and "the bridges burnt". Camp 1 had closed prior to 1915 but the exact date is lost. The Rib Lake Herald reported logs being shipped from "Athens" to the Rib Lake mill as late as 12/17/1917.

3	11/2/1906	1/31/1908**	less than 1	11/2/1906 - Angus McDonald	SPECIAL CAUTIONARY COMMENT: Photo 10,791 is a spectacular photograph of the camp crew standing on top of a camp barn building; this is <u>not</u> a picture of a RLLC camp; the printed text beneath the photograph reads "Osburn Lumber Company's Camp #3. Duncan A. McDonald, foreman, Rib Lake, Wis., February, 1901." While the W.A. Osburn Lumber Company eventually changed its name to RLLC, the photograph predates the name change. More importantly, this list is intended to provide information on the RLLC camps started following the takeover the RLLC by the US Leather Co. on 3/23/1906.

It is located in Township 32, Range 3 East. George Burnett is foreman. About 35 men will be employed."
18	6/25/1920	2/12/1925	5	1922 - Jim Peterson	Joseph A. Enders reports that he and Herman A. Rusch worked there one winter (1922) and Jim Peterson was foreman; 130 men worked out of Camp 18.

Star News, 2/12/1925: "Camp 19 - which is located near 28-31-4 - will soon be through and will be moved to 36-32-4 [this should read 36-31-4...RPR]. A spur has been extended to this new location." THE SECOND LOCATION OF CAMP 19 WAS 3 MILES EAST OF THE FIRST.¶ Map 12913 shows railroad and camp location.
20	5/7/1925		?	Charles Peterson; cook-Dan Pilon	No mention in annotated chronology. ¶ Taylor Co. Star News, 5/7/1952: "The RLLC is building a new camp, to take as high as 125 men. It will be known as Camp 20 and will be located about 15 miles southeast of Rib Lake. It is expected that the camp will be used about 4 years, logging a section a year from same. Charles Peterson is foreman and Dan Pilon is cook at the camp." ¶ Mike Weckwerth reports the camp location is NE 1/4 - NE 1/4, Section 26, T32N R4E, Town of Corning; "in middle of 40 owned in 2008 by John Kudick".

22	May 1934	1935	unknown	<p>Foreman unknown - <u>Star News</u>, 5/10/1934: "The woods operations will be in charge of Jim Peterson, veteran logger, who will make his headquarters at Camp 22."</p>	<p>As of 5/12/2009, there is no mention of Camp 22 in the annotated chronology of the Rib Lake Herald. ¶ The Star News, dated 5/10/1934 reported that the sawmill of the RLLC would resume cutting after being shut down from April of 1932. The Star News further reported: "The RLLC of Delaware plans to open two logging camps about the middle of this month, and has made contracts with 6 jobbers to log hemlock and hardwood for the company, according to F.W. Warrington, General Manager of the company. ¶ The camps to be started up are #22 and #23....Camp 22 will log the north 1/2, Section 16 [Town 32 North, Range 4 West], and Camp 23 the south 1/2 of Section 3, Town 32 North, Range 4 East, in Lincoln County. The camps will put in about 5 million feet apiece. The woods operations will be in charge of Jim Peterson, veteran logger, who will make his headquarters at Camp 22." ¶ THE 5/10/1934 ARTICLE IDENTIFIED JOBBING CONTRACTS GOING TO MORGAN PETERSON, LAMBERT LAMBERTY, WILLIAM NATZKE, HERMAN KLEINSCHMIDT, CARL KRUEGER AND G.W. LUEDTKE, WITH LEGAL DESCRIPTIONS OF THE JOBBER CAMPS.</p> <p>The Rib Lake Herald 5/4/1934 reported: "The company will operate 2 camps, 22 and 23, on Section 16 [Town 32 N Range 4 East]. Operations of these camps will start from the 10th to 15th of May [1934], same as that of the jobbers. Camp 22 will log on the N ½ of Section 16, and Camp 23 on the S ½ of Section 3, Town 32 North, Range 4 E, Lincoln County. Camp 22 will put in about 5 million feet, and Camp 23 and equal amount." [Note by RPR: Despite this quote, it appears that only Camp 22 operated in Section 16.]</p> <p>The article dated 5/4/1934, is Doc. 13876. The same article</p>

A color-coded map showing these lands is Doc. #13876B.</p> <p>The 5/4/1934 article went on: “Hemlock will be logged now and must be out by Nov. 15. Then loggers will start on hardwood around Dec. 1 and these operations should be wound up around Apr. 1, 1935.”</p> <p>“Hemlock bark will be peeled on all operations and it is proposed to peel from 5,000-7,500 cords. Men will be given opportunity to peel bark on contract if they prefer to peel that way.</p> <p>“The woods operations are in charge of Mr. Jim Peterson, woods superintendent, and he makes his headquarters at Camp 22, and has a telephone there. He hires men on company operations.</p> <p>“WHEN WE LOOK BACK OVER THE PAST 3 YEARS, DURING WHICH OPERATIONS WERE AT A LOW EBB, AND YOU MIGHT SAY AT A STANDSTILL, THIS SCALE OF RESUMPTION OF OPERATIONS BY THE COMPANY IS ALMOST TOO GOOD TO BE TRUE. Warrington, General Manager of the RLLC, informed us Wednesday that the demonstration of what a tractor can do in woods operations was so satisfactory that the company has decided to place an order for three tractors at once. The machines are rated at 24 horse power.” [RLHe 6/6/1934]</p> <p>“FIRST TRAINLOAD OF LOGS BROUGHT IN WEDNESDAY-The first trainload of logs was brought in from the woods Wednesday and consisted of 14 cars of logs to be sawed into timbers for use in the mill plant.” [RLHe 6/6/1934]</p>

<p>** Note: The actual dates of operation of the camps were beyond the dates shown in this list. Under some editors, the <i>Rib Lake Herald</i> regularly carried news from the camps; under other editors, there was little or no news of the camps. The <i>Rib Lake Herald</i>s published between January 1, 1922 and January 1, 1939, are largely missing; a variety of Rib Lake Lumber Company Camps operated during this timeframe. Information regarding those camps was lost with the destruction of these editions.</p>					
<p>Numbered documents shown here may be viewed on the CDs entitled <i>Rib Lake History, Documents & Photos</i>; a copy of the CDs is available at the Rib Lake Public Library. As of July 31, 2008, an effort is underway to put the collection online.</p>					
<p>References to the annotated chronology are to the <u><i>Annotated Chronology of the Rib Lake Herald</i></u>. It is available online at www.riblakehistory.com.</p>					

Special note regarding the numbering of camps shown here. This chart covers only the 28 numbered camps operated by the RLLC following the purchase of its stock by the United States Leather Company/Central Leather Company on 3/23/1906, and running to the liquidation of the RLLC in 1948. The prior owners of the RLLC and its predecessors used many of the same numbers to identify its camps. In addition, the Rib Lake based tannery numbered its camps. Finally, even some of the bigger jobbers numbered their camps; for example, William H. "Bill" Natzke operated his own jobber camps 1, 2, 3, 4 and 5 between 1923 and 1941, producing logs for the RLLC.

RIB LAKE LUMBER CO.

RAILROADS & CAMPS

This is a composite map showing most of the logging railroad trackage of the Rib Lake Lumber Company and its predecessors, the W.A. Osburn Lumber Co. and the J.J. Kennedy Lumber Company, between 1897 and the closure of the mill in 1948. In all likelihood, the location of additional trackage - not shown here - has been lost in time.

Marathon County

The Rib Lake Lumber Co. was formally created on May 6, 1902. On that date, the W.A. Osburn Lumber Co. - which had bought out the J.J. Kennedy Lumber Co. - changed its name to the Rib Lake Lumber Co.
