/ WIS CENTRAL RAILWAY

Hi Bob...further... checked my files a bit and did have something on WC 52. She was a powerful locomotive. Built in 1884 by Schenectady, their No. 1896. She was a 4-4-0, 63 inch drivers, engine weight 80,000 lbs. Couldn;t find anything on when she departed this world or how. That particular group was usually scrapped with parts cannibalized.. Will see if I can run down a picture for you.... Hope I can find some help on the Nancy Hanks. Don't think she was WC origin. Jim
